

Dear Sir or Madam,

I am writing to share my enthusiasm for the Charles Barnes Project. I have had the pleasure of working with them on more than one occasion and have the utmost respect for their musical talents and professionalism.

Even more important is what they bring to the event. The Charles Barnes Project adds the necessary spark that insures an events success. They add excitement that the audience can't help but get wrapped up in and remember long after it's over. The overwhelmingly positive response from our guests says it all.

I enthusiastically endorse the Charles Barnes Project and look forward to working with them often in the future.

Sincerely,

Dan Pierron
